What happened in 2017?

....with respect to the use of comics in my teaching and training activities?

- I planned to do a drawing course and didn't find the time
- I offered three workshops and had a lot of fun with the participants
- I wasn't calm enough to draw many comics ...

25.5.17 #comic to explain how we use the fishbowl system with our #com 16 students

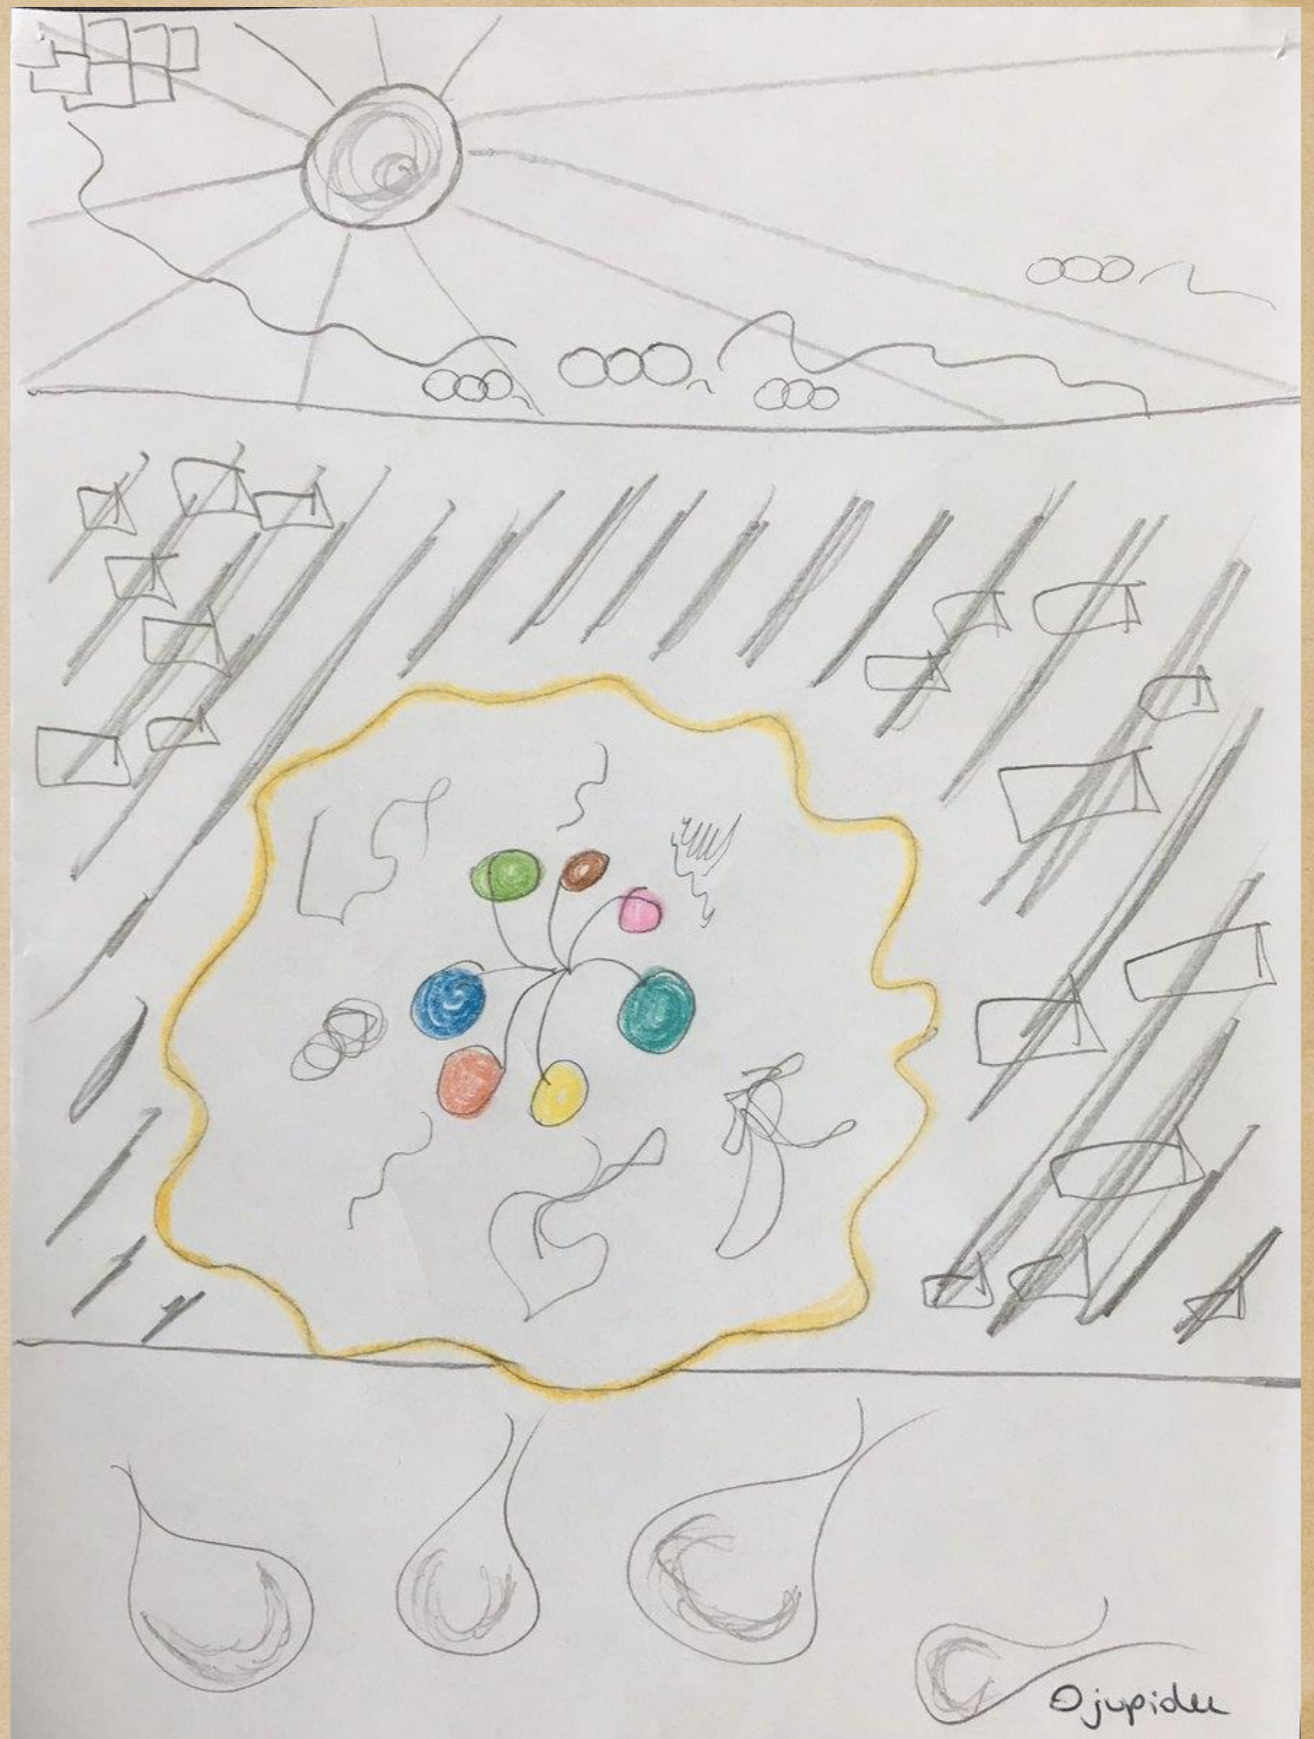

27.5.17 Workshop statt Vortrag #comic #gridsgestures

OBSERVATION PROJECT

Djupidu

discuss!
pedagogical background
what you have prepared
your questions

zoom meeting of teacher 1
teacher 2 takes notes
Later on teacher 2 fills his/her
observation into the observation minutes

In a meeting they discuss
the zoom meeting based on
the observation minutes.
What have they learned?
They agree upon a "public" version
of the minutes

Teacher 2 shares the "public"
version of the observation
minutes with the group.

Every COS teacher shares
his/her learning journal with
Juba.
On Monday 15.1 she will
read/listen/watch them and
give feedback

OBSERVATION

PROJECT

Team up

1.

Check teaching activities

2.

chat with each other

3.

please come to my content modelling ZOOM meeting on ...

4.

Ok, I will. Please can we fix the dates for our preparation meeting and feedback meeting as well?

5.

Good idea! And let's take a look at the observation minutes document because we shouldn't miss something

3.

please check the Slack channel about project work between On ... I will start with a new task.

PREPARATION
activity 10

New comics in 2018

- The teacher training continued.
- I did a workshop in carnival time.
- I created comics around MOOCs
- I offered one workshop (until today, 25. May) and had a lot of fun with the participants

JUTTA 17.1

JUTTA 18.1

JUTTA 20.1

can watch my 200h sessions

observed by presence during weekend

will observe Jubin at 20.1.

presence? isn't the training about online?

20.1 was the day before yesterday

YES! definitely

must get back into learning mode!

trouble

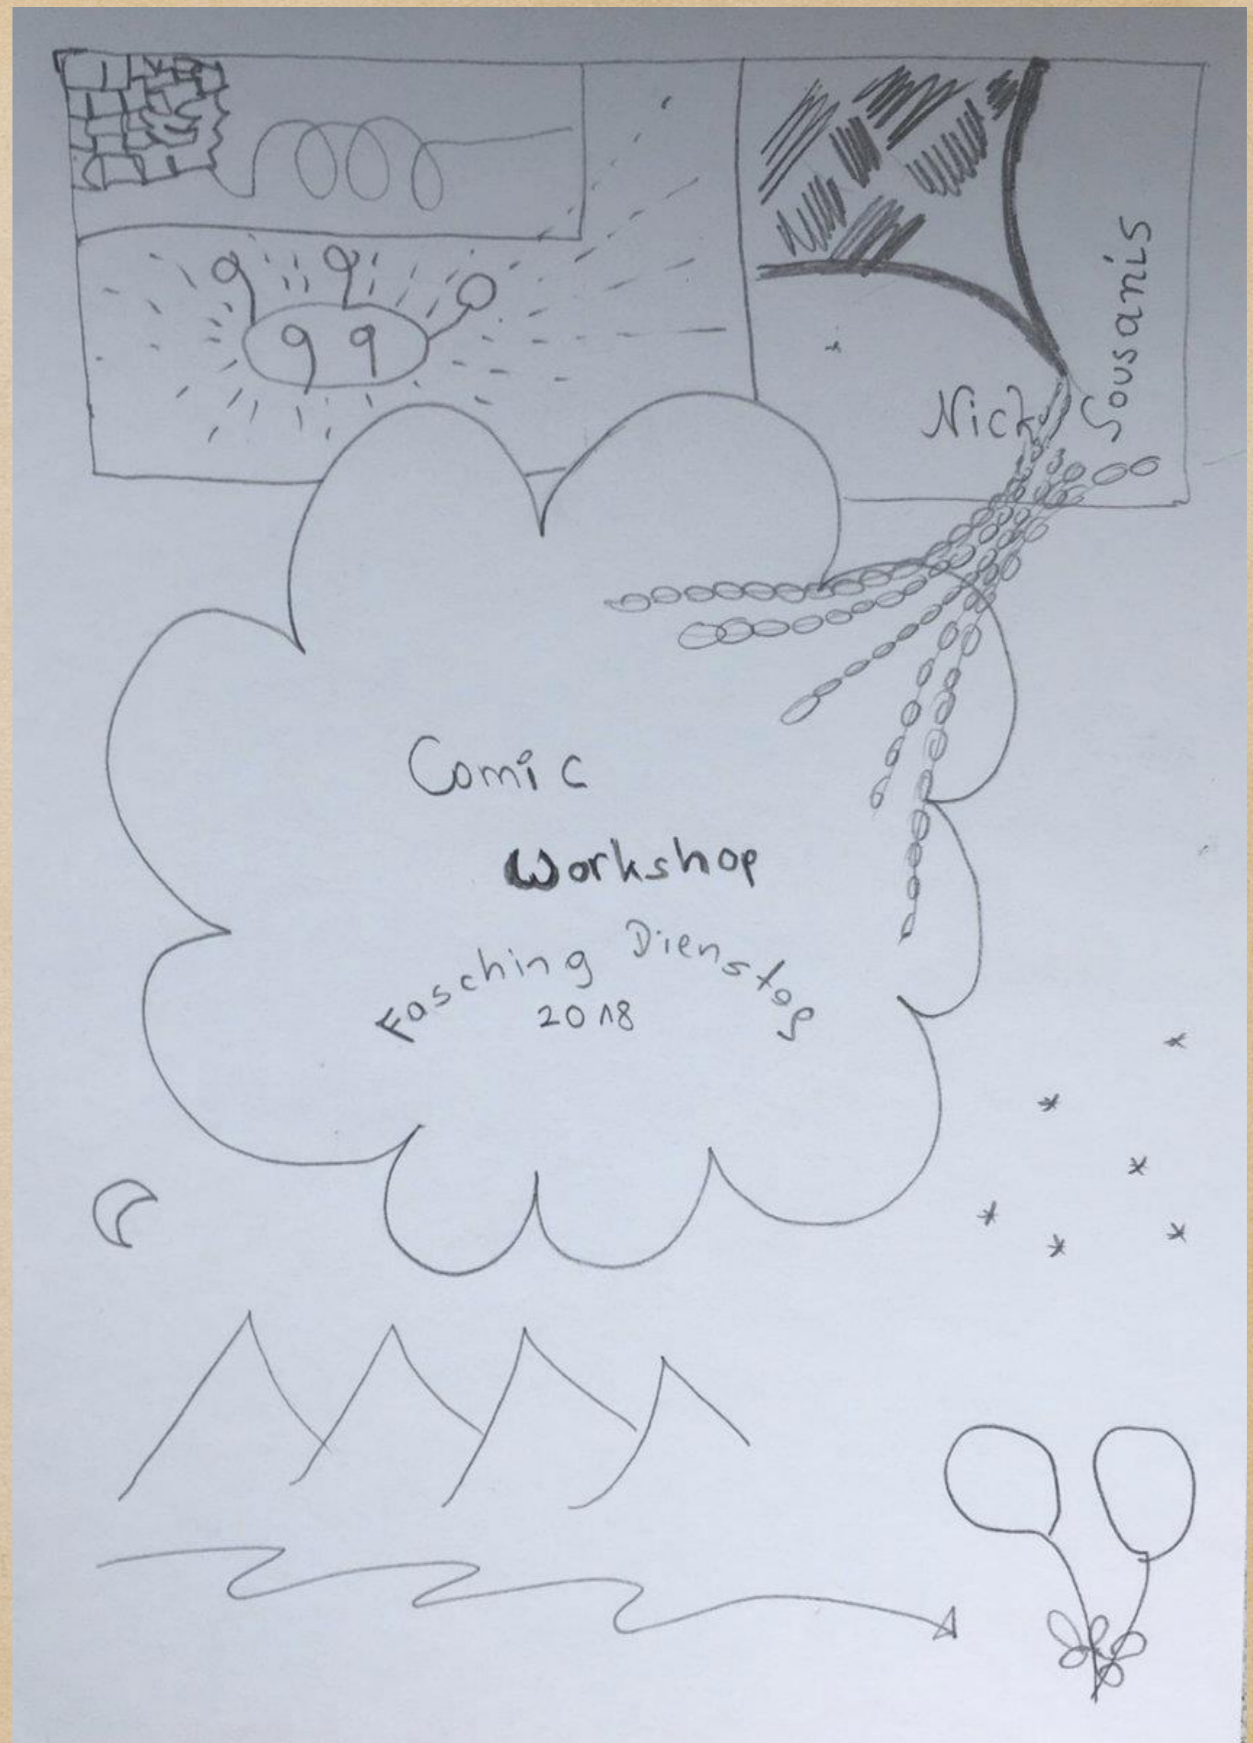

... vanished ...

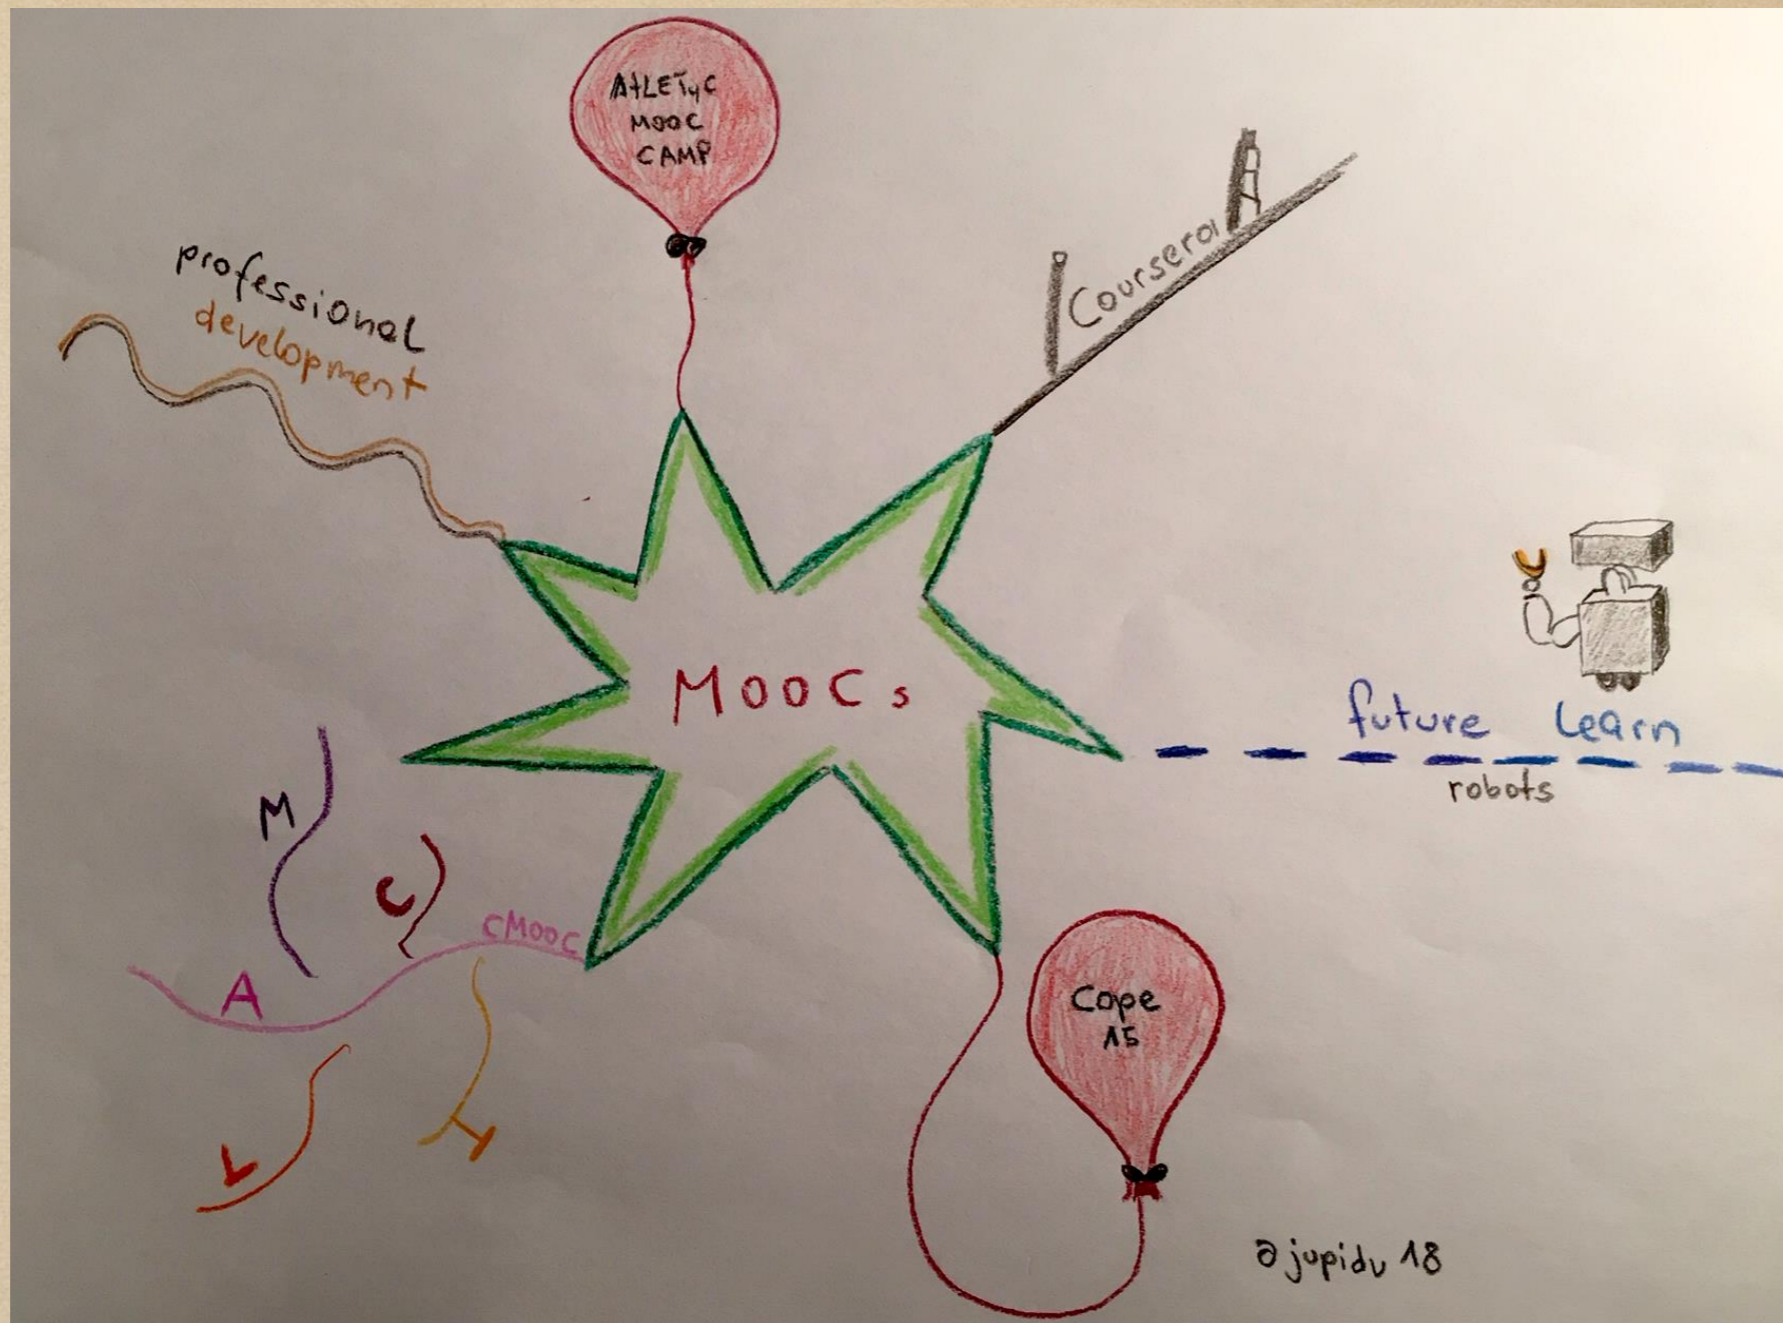

I'm sorry! But ...

Comics Workshop in Viena

- 28.5.18 Workshop „Comics und grafische Elemente in der Lehre“

Reflection

- I use comics
 - to explain things - often training/learning instructions
 - to get into discussions
 - to have fun by visualizing an element of (online) teaching
- I do not draw comics if I'm sad.
