

Portfolio: Learning task 2: Preparing #coscamp (7 hours)

Time frame: 13.-23.10.2021

Purpose: prepare a session for the barcamp in groups of 2 or 3 students

Task: In week 1 of the online socialisation you were asked to write about your competences. Students with similar competences should pair up and prepare a session for the barcamp on Saturday, 23. October. You can find information about barcamps below.

So: prepare some slides or a flipchart (not too many, a barcamp is about discussion) and some questions for discussion.

Write the final title of your session into Slack until Tuesday 19.10. Prepare the slides / the flipchart before the barcamp on Saturday.

Interaction: Share questions, concerns and solutions in Slack!

Information about barcamps

A barcamp - also often called a non-conference - is an event where there is no ready-made program. Sessions are only suggested on the morning of the barcamp and the audience can vote which sessions are interesting and therefore actually take place.
